

Candidate for RPSTA Councillor

Bruce Brander

Like most teacher's I'm not that comfortable touting my own horn, but there are some reasons why I would like to ask you for the opportunity to serve.

- I've been a councillor for a number of years and have the experience that allows for efficient work.
- I've taught in ten different schools in two different school divisions working with students from K – 8, though have done more work lately with middle years.
- I've authored a number of resolutions, all of which have been accepted by Council though it has taken three years and the support of my fellow RPSTA members to get the last two, concerning the creation of online Saskatchewan teaching resources and advocacy for some of our more disadvantaged students, to finally get passed.
- Served on the STF Technology Committee, a committee created by one of my previous resolutions.
- Have applied to serve a three year term on the STRP Board.
