## Teaching experience

- K to 12 Substitute Teacher, Conseil des Écoles Fransaskoises (2007)
- Middle Years French Immersion teacher, Regina Public (2008-Present) at Connaught Community School (former) & Hawrylak School (present)

## Why are you running for the position?

- We are experiencing an extremely challenging time in Saskatchewan's education sector. The role of teacher *as a professional capable of making independent decisions* is being eroded. I'm committed to putting in the time and energy to *reaffirm our value in today's society*.
- I'm part of a strong Executive, STF Council, and local contract team. I wish to continue my research on contracts, local and provincial issues, and be a strong voice for our teams. I'm not yet done helping out our cause.

## What issue(s) do you hope to tackle, support, or advocate for during your term, if elected?

- Reduce workload intensification and encourage optimal working conditions (class size and composition, for example,) locally and provincially
- Wages that meet or exceed cost of living and make our job attractive
- Continue pressuring the government to **STOP THE CUTS** and establish solid contractual language over teaching time
- Unique needs as further identified by member subgroups (guest/substitute teachers and administrators are but two examples)
